

Clifton Hill in Niagara Falls

Just steps away from Niagara Falls, Clifton Hill is a bustling area jam-packed with tons and tons of fun.

A ride on Canada's largest Ferris wheel offers you an awe-inspiring and unblocked bird's eye view of Niagara Falls and the surrounding area at 53 metres above the ground. Better still, get on the wheel after dark to see the spectacular Falls and Clifton Hill lit up by colourful lights. You may even get to enjoy the dazzling fireworks at the Falls on a summer night.

Besides the Ferris wheel, there are other attractions that add to the excitement, including arcades, haunted houses, 4-D simulation rides, mini-golf courses that glow in the dark, and wax museums where you can meet great celebrities and movie characters, such as Harry Potter, Captain Jack Sparrow, and Batman. In fact, simply taking a walk along the street would be fun enough – can you imagine seeing King Kong standing at the top of a collapsed Empire State Building and Frankenstein's monster with a hamburger in his hand?

Clifton Hill is a must-visit place for a fun-seeker like you.
