

# The Big Apple

How big can an apple be?

There is a big red apple in a small theme park between Toronto and Kingston, Ontario that is more than ten metres high! It is so big that you can climb up inside it.

At the Big Apple Theme Park, you can enjoy yummy apple pies. There are 18 kinds of apple pies for you to choose from. After lunch, you can go to the petting zoo to mingle with the llamas, goats, ducks, geese, and rabbits.

A day at the Big Apple can be a lot of fun.
