

A BALLOON PINWHEEL

A Paper Pinwheel

A paper pinwheel is a cool toy. Follow the directions to make one of your own with your parents.

Materials:

- a piece of paper
- a pencil with an eraser
- a hole punch
- a pin

Directions:

1

Cut out a square from the paper.

2

Cut along the dotted lines toward the centre.

3

Use the hole punch to make holes in the corners as shown.

4

Fold the holed corners to the centre and pin them all to the pencil eraser. Do not crease the paper.

Ask yourself!

- What happens to the pinwheel if you blow harder?
- Do you think the pinwheel will spin if there are many holes in it?
