

# Marineland

There is a popular summer destination in Ontario that promises to make you gasp in wonder, laugh in delight, and scream in excitement – all in one day. To experience this, head over to Marineland in Niagara Falls!

At Marineland, you can get up close and personal with a variety of friendly animals. Let yourself be entertained by the killer whales, as they swim, play, and jump to surprising heights, or try petting and feeding the beautiful beluga whales. Also, don't miss your chance to see these whales from underwater: your breath will catch in your throat as you step into the viewing room and watch these amazing creatures swim right up to your face, with only a glass wall separating you.

The animal shows are also great fun to watch: the aquatic stars will amuse you with their cleverness and make you laugh out loud with their tricks! After a delightful day of meeting and learning about the giant sea animals, thrill-seekers can also have fun on a variety of rides and roller coasters.

Marineland is full of fun things to do for the whole family!
